REPORT ON SUBSTANCE ABUSE

Substance abuse refers to the harmful or hazardous use of psychoactive substances, including alcohol and illicit drugs. One of the key impacts of illicit drug use on society is the negative health consequences experienced by its members. Drug use also puts a heavy financial burden on individuals, families and society. The evolution of the complex global illicit drug problem is clearly driven by a range of factors. Sociodemographic trends are influential such as the population's gender, age and the rate of urbanization.

A guest lecture was organized by Savitribai Phule College of Nursing, Kolhapur on "Substance Abuse" Resource person Dr. Nikhil Chougule (M.D. Psychiatry) who is at present working at swastik hospital Kolhapur. Drug abuse affects the body and mind of the users and often many of those around him or her. Dr. Nikhil sir explained various drugs used by the addicts and the short-term and long-term effects of their usage, which may lead to health problems, harmful effects on the brain and genetic disorders. They explained everything about substance abuse with examples and students posed many questions related to drug abuse which they answered. This session helped them in understanding the various biological consequences of using drugs on their body, mind and behaviours. At the end of the program Prof. Vishal Powar sir gave a short speech and the program was ended at 12pm.

REPORT ON BLOOD DONATION CAMP

A blood donation camp was organized by our Savitribai Phule College of Nursing, Kolhapur in collaboration with Jeevandhara Blood Center, Kolhapur through which 20 units of blood was donated by both students & faculty members of our college. It is a way of Savitribai Phule College of Nursing, Kolhapur gesture in bringing a ray of hope to contribute to the serious problems of acute shortage of blood. India faces a blood shortage of 3 million units. The problem can be addressed if an additional two percent of Indians donate blood, as opened by the health experts. We need 12 million units of blood every year but just about 9 million units are being donated.

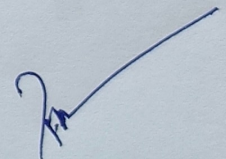

Our college has been religiously organizing blood donation camps every year and students & faculty members come forward voluntarily to donate blood. While addressing to people at the camp our college student volunteers brought awareness in them about shortage of blood & why we must donate blood every year, to help person requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical & crucial for saving lives many patients and those who have met with accidents. It is such a great service or contribution to the society and people living in it.

Prof. Abhaykumar Salunke sir, President Vivekananda Shikshan Sanstha, Hon. Secretary Prof. Mrs. Shubhangi Gawade madam, Hon. CEO Mr. Kausthubh Gawade sir, Dr. Vijay Patil sir, Hon. Dr. Chandrakant Gaikwad(civil sugron st, Jounge hospital Mumbai) Dr. Sanjay Patil (Hospital board of India, Pune) Dr. Vikas Vadagave (Health Officer , Police Hospital, Pune) Prof. Vishalkumar Powar(Principal, Savitribai Phule College of Nursing Kolhapur)The Guest speaker was Dr.Sheetal Mahajani ,M.D. (MED),DNB (Gastroenterology), Fellow, Liver Transplant medicine kings college hospital, London.

Dr. Dr.Sheetal Mahajani Shed light on various astonishing facts about organ donation. She said that highest form of giving is the "Act of organ Donation". She discussed the history of organ donation. It was started in 1954 and the first successful kidney transplant was done on 2nd Feb, 1971 in CMC Vellore. He also shed light on various Concept of organ donation such as when and who is able to donate the organ and difference between normal brains, brain death an vegetative state. The organs we can donate are Eyes, Kidney, Liver, Lung, Pancreas, Small Intestine, Hands etc. She also told us some successful stories of organ donation recipients and donor's family members and also about green corridors. She also discussed the social issues as well as religious and cultural issues, mistrust on healthcare system and misconception about brain death among the public. she also said that Live life and Give life and Don't take your organs to heaven, for heaven knows they are needed here. She explained about the importance of organ donation that how can our parts of body survive after our life end and also told about working government system and Donor card. Because death is a mystery concept which many people don't understand. Death cannot be avoided and no one can run away from death. Organ donation is a noble act that could give a ray of hope to another person's life who is suffering

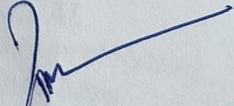

through many years because of the failure of a particular organ or organ. Be part of this noble act and have a donor card that shows the willingness of a person to donate an organ after his or her death.

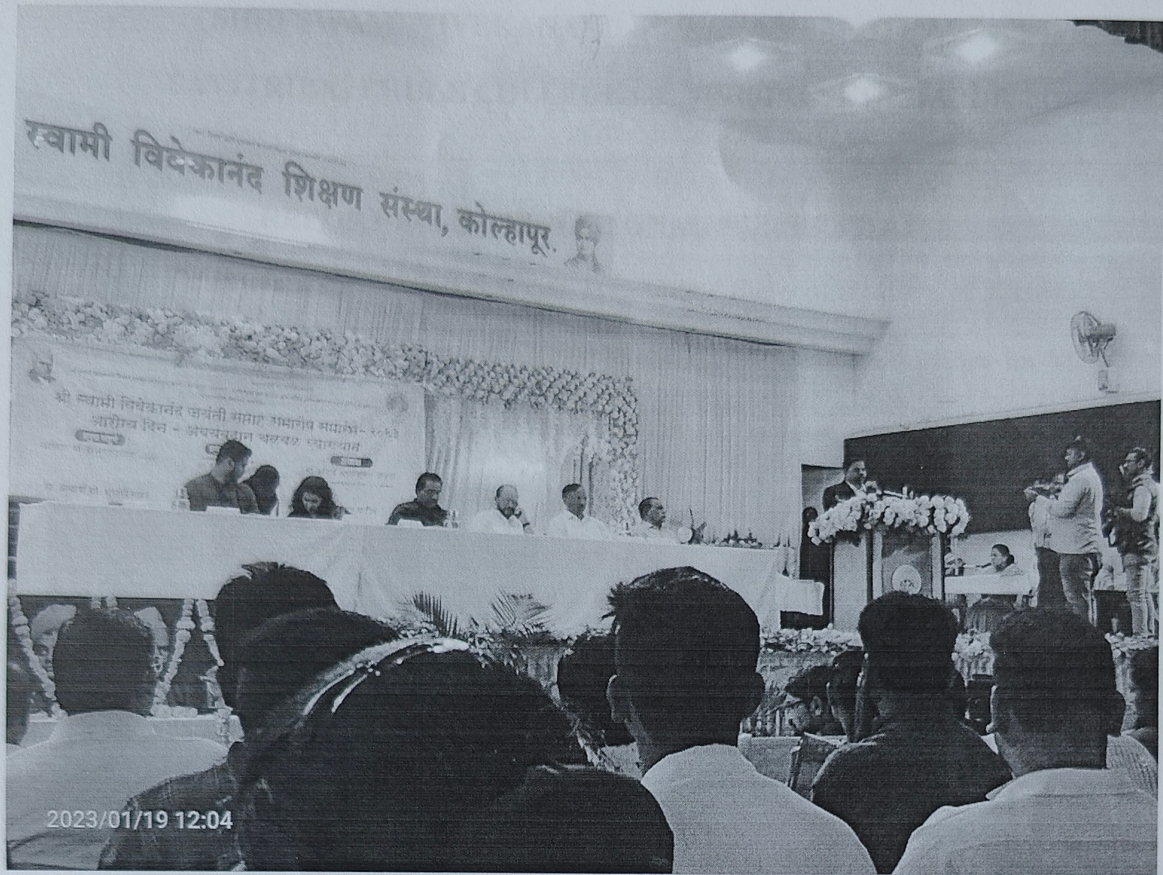

Every year around 5 lakh people die due to organ failures in India. This could be due to accidents or the failure of specific organs. Organ transplantation can help in saving the life of people who have been fighting to survive. Organ transplantation is one of the greatest achievements that modern science has been able to accomplish. Many lives could be saved and significant deaths could be avoided if organ donation is done at the right time told by Madam.
